

A few personal memories (1959 – 2020)

Hard work, many difficult obstacles and challenging experiences, but also very successful technical and scientific accomplishments and achievements as a pioneer of computer graphics: The author describes his path of life in these "very personal memories" from student to professor and high-ranking research manager in Germany, from an 18th-year-old young man to today's proud 80-year-old grandpa.

Valeu a pena! ...
