

## Before

## Typical representation of network topologies

## Milady

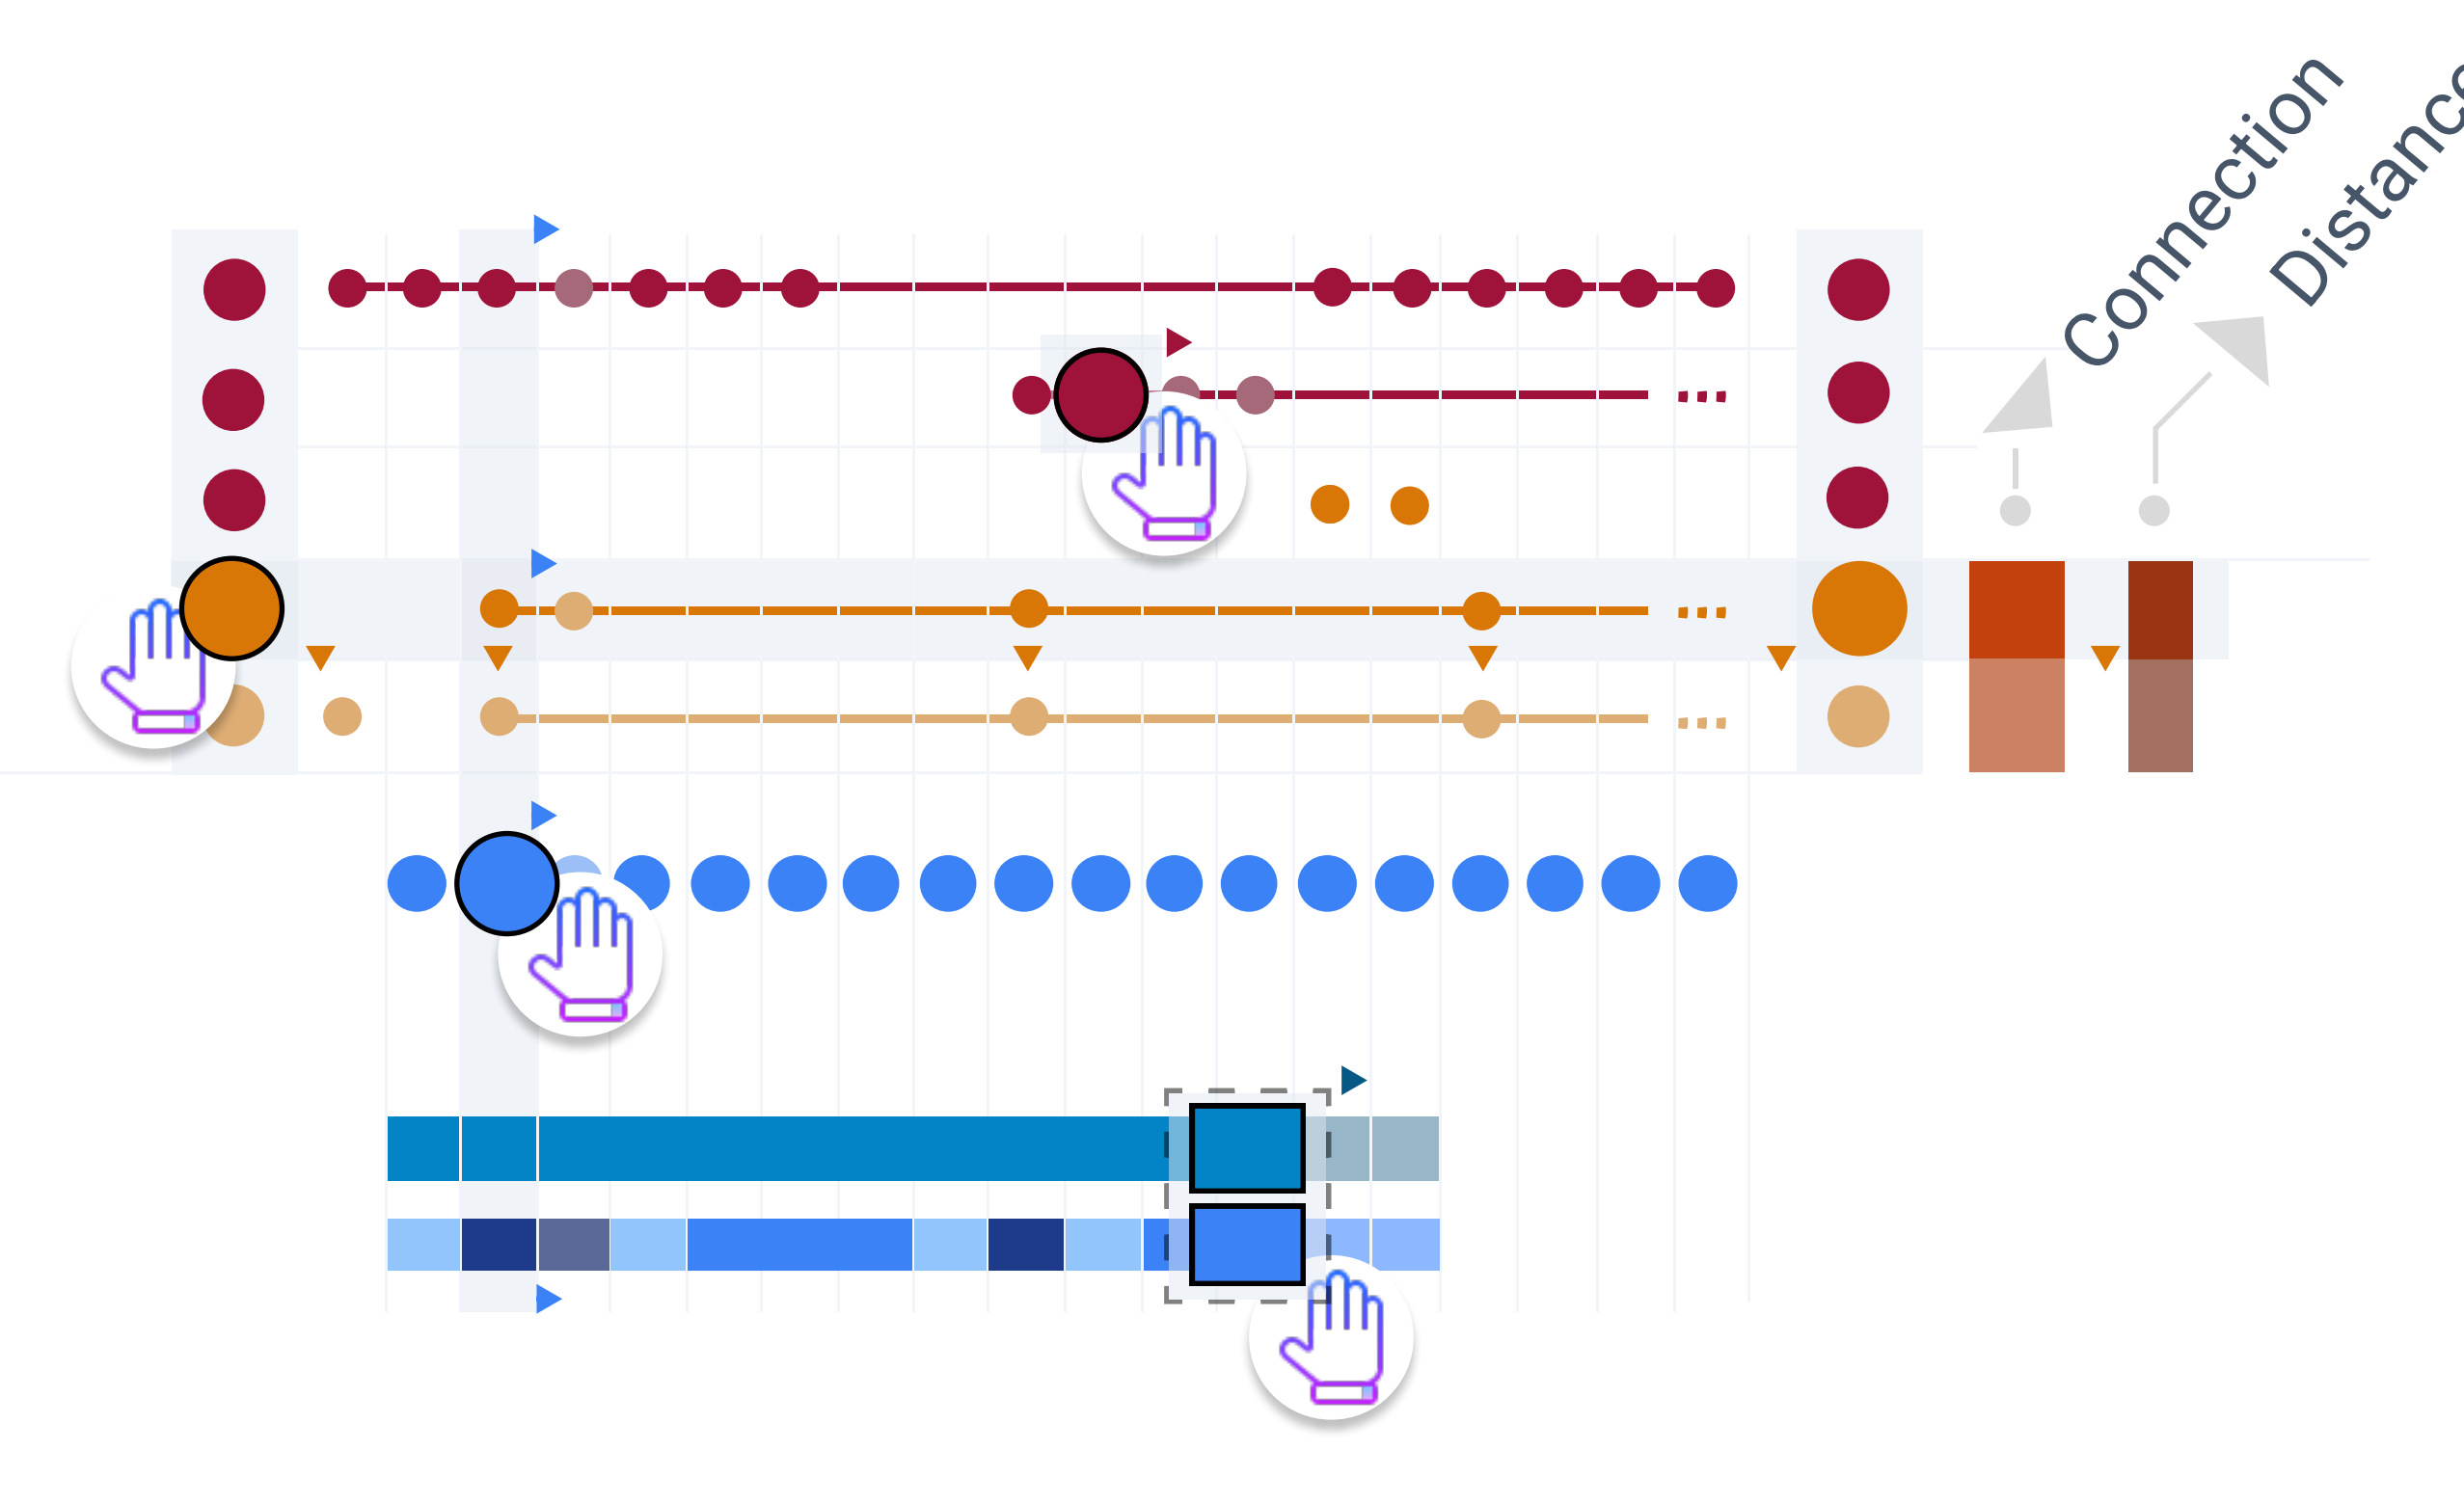

## Display topology and attributes in a single view

### Node-Edge Diagram

- Fiber Balbec #1  
Bandwidth: 500 Mb/s  
LAN to LAN
- Easy to follow paths
- Easy to learn and understand
- Limited attributes visualization (on-node encoding)
- Edges hard to edit,
- Clutter,
- Interactions on individual entities

### Drag gestures
